

**BELISLES**

**OF**

**AMERICA**

## DEDICATION

To our Ancestors and their strong belief in God and the Family. They succeeded in having wonderful families and leaving the countries better off after they left because "others" came before "self". The welfare of others, in and outside the family, came first.

## INTRODUCTION

This book is made to record two things: the family reunion in January, 1980 and the information gathered on the Belisle families, (old). For two years before the reunion, many letters were written and some research was done on different Belisle family lines. This helped some families find information or connect up with someone else. Some were able to complete their lines back to Canada and France.

The families that we are putting in this book is usually the first generation in the United States. During the period 1840 to 1900, the records are poor in the United States and the families during that period is what we wanted in this book. This may help many in researching their Belisle ancestors. Before 1840 most of our ancestors were in Canada and the records are very good there. With the many books published in Canada on families and the Marriage Record books of the many churches, most ancestors can be easily located in Canada.

Usually when we say a "Belisle Family Line" we mean a line descending from the 1st Belisle of that family that came to the United States, or the furthest we have gone back on that family.

## SUMMARY OF THE 1980 BELISLE FAMILY REUNION

The "Belisles" of America had their Family Reunion from January 3, 1980 to January 14, 1980 at the Quality Inn, 616 Convention Way, Anaheim, California. The reunion included all Belisle family lines and their descendants in Canada, United States and some that have gone to England, West Indies and Central America. Contact was made with only the following 4 different lines: Belisle dit Goyer, Belisle dit Chevrefils, Belisle dit Germain and Belisle dit LeVasseur-Vasseur, and with many people that have not traced their ancestors back far enough to know about them.

The planning for this reunion started during the July 1977 reunion in Vancouver, B.C., Canada when Harvey Belisle volunteered to organize and sponsor it in Anaheim, California during 1980 as many wanted to combine it with a vacation and to see the sites in that area. Within months Harvey had contacted the large motels in that area that also had a meeting room. The Quality Inn was the only one that had any dates open in 1980, two weeks in January and two weeks in November. The January dates were picked as many people could extend their Christmas

Holiday, making a long trip possible.

During the following year of 1978, over 1,000 letters were sent out advising people of the time and place and requesting to know if they were interested, to advise their relatives and make suggestions. During 1979, more definite plans were made for the reunion and exchange of Family Tree information was made between many people that led to many family lines being connected and extended back into Canada and France.

Most of the people that came to the reunion were from the "dit Germain" line, descendants of Joseph Belisle and his wife Celina Dufresne. This line had reunions in 1931, 1965, 1967 and 1977. We did have a number of people come that have not traced their family back very far or did not trace them back into Canada so do not know what family line they belong to.

A few are researching their family ancestors now and will be finding information in the near future. There are a number of other Belisle family lines in the United States and Canada, but up to this time, no contact had been made with any of their descendants.

Of the 11 "dit Germain" lines we know of in the United States, their descendants living today in America would number at least 5,000 adult people. The four "Le Passeeur" lines are also large families and with the other 10 family lines we know of, we estimate at least 25,000 adults cousins in America. Usually when we talk about a "family line" we are talking about the descendants of the first Belisle that came to the United States. Since all Belisle lines do not connect up on the Belisle side, they could still be cousins as most of our French-Canadian ancestors go back 9 or 10 generations and we would connect up on some other line. This was explained in more detail about us each having about 1,000 to 2,000 French-Canadian ancestors, half of them in the 1st generation, or the early years of Canada (1618-1673).

Three families arrived via plane and 4 by cars on Thursday, Jan. 3. Friday morning 42 people on a group flight arrived via Northwest Orient Airlines from St Paul-Minneapolis, Minn.

The rest of the people kept arriving during the day and some during the week. Two local families living in Anaheim heard about the reunion during the middle of the week and came and visited us.

Since most of the descendants name are not Belisle, it was not possible for us to notify everyone.

#### SCHEDULE FOR THE WEEK

The first get-together for everyone in one group was on Friday, January 4th with a Mass at 5:30 PM, dinner at 7 PM and a program at 8 PM. The program was mostly an explanation and introduction of the

different groups, families, where people came from, the oldest, the youngest, mother of the most children at the reunion, etc. Our oldest member present was Fred Belisle, age 84, who was also our newlywed, married 6 months ago. We had 2 ladies present that were 83 years old, Lonnie Garrett and Frances Marchand. The furthest families came from were from Quebec city and Montreal.

We explained a little about the many Canadian records, especially about the Marriage Contracts and the French custom of always making one and that most of them are still in their archives. Also about how the women are always referred to by her maiden name in written records. This is a great help in doing research on families. We also explained about surnames and their changes and the many reasons for it. Some was just a personal desire, mostly to better describe the person by adding an extra surname with the word "dit" connecting them. The extra name could describe where he was from, his real

parents if adopted, his occupation, his employer, etc. Over the years, one or the other would be dropped. The spelling of the name is often found to be different in different records as many could not write their name so it would be spelled the way it sounded. When the name was translated into another language, it could be spelt different when translated back or into another language. Also poor

handwriting makes it easy to read it different by some people, in records or documents. In the Court House at Hudson, Wisconsin on a marriage record the name Belisle is spelt 3 different ways. In the cemetery in Portneuf, P.Q., Canada, the name is spelt eight different ways.

Our Meeting Room

T SHIRTS: One of our cousins in California, Tony Lardas, as a Junior Achievement project, had T Shirts printed with "Belisle Family Reunion 1980" on the front and the Family Crest with a design on the back. See page 4 and 5. These were sold during the week.

The "Belisle Family Crest" on a wall plaque was displayed by two people, each a little different style and size. One 7 x 9 inch plaque can be ordered from Ronalds Heraldry, 525 Front St., New Westminister, B.C., Canada V3L 1A4 for \$37.50 plus \$2.50 for postage. The other can be ordered from Jeff Stoner, 11101 E. Imperial Hwy #33, Norwalk, CA 90650 for \$25 and \$30 (little larger) plus postage, and it has a place on it to put the name of the person it is presented to.

It was decided a new Belisle book would not be printed or that the present ones reprinted as not enough orders were received. Most of the people present have a Belisle dit Germain or the Belisle/Dufresne one.

Ellen E, Sr Gertrude, Fr Ron, Fred E

We explained the different family lines present and the lines not present that we had made contact with over the past year and the person in each line that had the most information. This family list and the first generation family in each line are printed in the back of this book. The history and location of these lines were discussed the following evening.

Having a number of young single people, age 15 to 25 there, we had a general introduction on Friday eve and some of them did get together Saturday morning for an exchange of information and plans. Some then took off for the beach or on tours.

On Saturday afternoon a small group of Campers, R.Vs. and Travel Trailer people got together to get acquainted and compare equipment and the site they were staying at.

Saturday night banquet

On Saturday evening after Mass and banquet, we presented a talk about the different family lines and the Belisle family history. Since most of the people were from the "Belisle dit Germain" line, we went into more detail on this line, where the first and second generation lived in the United States, when they came, where they lived in Canada for nearly 200 years and where they came from in France. And a little about those that stayed in Canada. We also mention when and where the other Belisle lines came to the United States and where the 1st and sometimes the 2nd generation lived.

As many people are interested in tracing the Belisle name back; the marriage of the first one in Canada was Robert Germain (dit Belisle), recorded in Quebec as married 29 Oct 1669 and his parents name in France, where they lived in France. They lived in the parish of St Sauveur, of the village of Lonlay Labbe, in diocese of Mans and that Robert was born in 1639. This village is located in the south part of Normandie, about 150 miles west of Paris and 30 miles east of the Atlantic Ocean, or the Gulf of St Malo. No research has been done in this area to see how long the family lived in the area or did come from the "Belle Ile" located about 100 miles southwest. It is possible that the name started to change in Canada as they have many beautiful "Ile" islands there or with Henry, son of Robert, that had a grinding-

church at  
Lonlay-  
Labbe,  
France

rist mill along the Belisle River near Deschambault, P. of Quebec, Canada. It is possible they named the river after them or he and some of his children were named after the river. Some of the children did carry on the Germain name and some carried on the Belisle name. The Germains that came to Somerset, Wisconsin were also descendants of this same Henry Germain. A few of these Germains in Somerset did marry Belisles and one family there goes back to this first Germain dit Belisle five different ways.

On display were colored pictures taken in 1977 of the village and church at Lonlay Labbe but most are too dark to print here. When the Dhamen family took the pictures and visited the village in 1978, they talked to the pastor and he stated that the part of the church that has not been rebuilt dates back to before 1639, so most likely Robert was baptized in this church. We have another cousin that expects to visit this village in the summer of 1980 and maybe she will find some information.

Most of our other ancestors in Canada came from France earlier than the Belisle-Germain and therefore have more generations and more descendants in Canada. We have many biographies on these ancestors that have been published in books and magazines. Most of them is about them living in Canada but a few go back into France. All of these are published in Canada and only one set of books and one magazine is printed in English. The genealogical societies in Canada are the best for information source because they print recent research findings in Canada and France. The best and in English is "French Canadian and Acadian Genealogical Review" address "Case postale 845, Haute-Ville, Quebec, Canada G1R 4S7; and one of its magazines is completely about Louis Hebert, the first settler in Canada and one of our ancestors. He died young from a fall on the ice and his 3 children, only two girls gave him 9 grandchildren but from them he is the ancestor of so many in America.

In the future, more information will be found as genealogists do more research in old records and we hope some of it on our ancestors will be published. A little can be found in France but not much as most of the records were destroyed during the French Revolution as the peasants didn't want records available to aid the nobility to later reclaim their land.

Sunday noon, Jan. 6, had a picnic in the park in Anaheim with French Pea Soup, very thick with lots of ham, green salad, a French roll about 12" long with fresh butter. For dessert had Ice Cream and fresh strawberries. This was all furnished and served by Harvey.

Bernard Belisle from Wisconsin showed how the early settlers made sugar from maple syrup and in

the process had a "Liche le Palette" (lick the paddle) party. They usually did this after they made their maple syrup in the spring. While the maple syrup was boiling, they had wooden paddles that they would stick in the hot syrup and after taking it out, kept turning it to cool and not run off, they would lick the paddle. After the syrup was very thick, they would pour it into molds, some very fancy shapes like hearts or log cabins, to cool off into sugar. He also showed us his old fur cap and very old rifle.

Sunday January 6, 1980 had been set aside as "Womens Day" to honor all the women in the family as we have so many great ones. After Mass and dinner on Sunday evening, our program was to name some of these and give some information about them. Except to have some of the heads of families sit at the head table, we didn't mention or honor any women present or presently living because of lack of time. Also we didn't mention any of our mothers and grandmothers even if we know some of them were outstanding or saints. We went back at least a 100 years to 350 years to collect the names of our women ancestors to mention and tell a "little" about, although much is known about some of them. Some have biographies written about them. Other are mention in history books with information about them.

Some mention with some information about them were:

Eleonore Grandmison b c 1620 France, d 1692 Quebec, married four times, outlived last husband by 20 years. She took care of her children and many Indian orphans and rented land to the Indians when the remnants of the Huron nation took refuge on the Ile d'Orleans. She even brought legal action against another one of our ancestors, Louis Jolliet, (who with Father Marquette was the first white man to see the Mississippi River), for trading in the Ottawa country.

Charlotte Mac Dougall, the only Belisle ancestor who's line hasn't been traced back to France and could have some Indian blood. See next page for more information about her.

Anne Langlois, the 10 year old girl that tried to get married but had to wait 2 years until she was the legal age.

Jeanne Mance, Sister Marguerite Bourgeoys and Mille. Bullion, who all had so much to do with starting and keeping Montreal going were mention in more detail on the following Saturday night when we presented information of the "Great Recrue of 1653".

Most of the evening was spent telling about the women that came from France to Canada as brides during the first 55 years of Canada's settlement, to become wives of the settlers. Most of them, about 800, came during the 10 year period of 1663 to 1673 as "Fille du Roi" or "The King's Daughters". They were called this because the expense of bringing them over and giving them a dowry was paid for by the King. Much information is known about these girls as much research has been done on them as they are ancestors of nearly all French-Canadians. The Belisles have 7 of them as ancestors and they are listed, with information about them on page 17 of the Belisle book. Mrs Joseph Belisle, a Dufresne, has 10 girls with information on page 156 of the same book. Mrs Augustin B. and Mrs Henry B. were Germaines and they have 11 on page 178. Mrs Alfred B. and Mrs Fleurie B. were Labonnes and have 7 girls and we have not found all their ancestors yet. Mrs Oliver B, Sophie Paquin has 4 on page 208. Mrs Isidore B., Celina Gauthier has 11 girls on page 171. Elizabeth Belisle married a Perrault and then Joe Trambly and they have 8 girls on page 216. It is interesting to note that some of these girls will appear on more then one list.

Norbert Belisle has 8 ancestors that are King's Daughters.

These girls and information about them can be found in many books and magazine and one book written a few years ago is only about them.  
(continue on page 32)

The following was received from Mr. R. Auger, Quebec Archives after the Belisle/Dufresne and Belisle books were printed and should be interesting to all that have them.

### Charlotte MacDougalle

She was born about 1783 and died by drowning 15 April 1826 near Deschambault, P.Q., Canada, at the age of 43. She had married Augustin Belisle in Deschambault on 13 Feb 1798 and had 7 children with him.

When Charlotte McDougall married Augustin Belisle, the church records say she is "fille mineure de cette paraisse" or she is "a minor, daughter of this parish." No mention of her parents.

On her marriage contract with Augustin Belisle written by and signed in front of notary F. X. Larue on 27 January 1798 (Archives nationales du Quebec) says: "Marie-Charlotte McDougall, daughter of Monsieur Alexander MacDougall, bourgeois aux pays d'en haut." She declares that she lives with Sieur Jacques Perrault, voyager aux pays d'en haut, and his wife, Charlotte Richaume. The foster parents give the young couple all their havings provided they can live with them. The marriage contract is also a donation with all kinds of items listed. Charlotte's mother is not mentioned. But her father, Alexander McDougall, is well known. "He was a fur-trader and became a partner of the North West Company prior to 1799. He signed the agreements of 1802 and 1804 by attorney; and he does not appear to have been ever at Grand Portage or at Fort William. Probably he was in charge of some district, such as the Temiscamingue or Abitibi district, dependant on Montreal.

A "Mr. M'gdougle" is said by J.B. Perrault to have been in charge of a fort at the lower end of Lake Abitibi in 1812. He seems to have retired from the fur-trade about 1813, and in 1814 he was elected a member of the Beaver Club of Montreal. He was dead by 1825. (The Encyclopedia of Canada, edited by W. Stewart Wallace, M.A., Vol. IV, page 174).

bourgeois means: middle-class and/or merchant

The 800 girls that started to come in 1663 is a large number when only 2,000 white people were living in Canada at the time, many of them were children that were born there. It is not known the total number of people that emigrated from France to Canada as many came and went back but it has been estimated to be between 5,000 and 8,000.

There are many interesting things about these girls and this situation. One was that many of the girls signed marriage contracts and married in a short time after arriving. Another is that many changed their minds after signing the contract and before the marriage and with mutual consent and good reasons, they could have it annulled. Most of these girls had some things in common, their courage, being poor and one of their parents had died. So they had no dowry and this was very important in those days. The girls ages ranged from 12 to 45 years but a good number were between 20 to 25 years old. During that period, girls became concerned if they were not married by that age, but they were a little smarter and asked lots of questions about the man before agreeing to marry him. The success of these marriages is considered to be greater than the other marriages in Canada or France. A couple reasons are the training these girls had received when young and then the determination of both the man and woman to make a better life for their children. A six page summary about these girls can be found in the Belisle book.

On Monday we started with an 8 AM Mass and after breakfast we had Father Cloutier present his slides and audio tape on the French-Canadian Voyagers, the men that traveled from Montreal via the lakes and rivers to the different trading post as far west as the western edge of Lake Superior and then other voyagers in smaller canoes went with the supplies up the rivers for over one thousand miles into the far west parts of Canada. They returned with the furs via the same route to Montreal and the furs were shipped to Europe where there was a great demand for these skins and furs, especially the Beaver. The Beaver hat in Europe was very popular for many years and a status symbol when one could own one.

At different times during the reunion, LeRoy Hansen showed his movies of the last reunions, 1977, 1967 and 1965.

Monday noon the descendants of Joseph Belisle and Celina Dufresne had a lunch and a little presentation about their grandparents life and where their children settled.

On Monday evening, because a good number of Belisles are in the cooking or restaurant business, we had a film on the World Cooking Contest in Germany. This is held every 4 years. Charlotte Belisle and her son Nelson were on the chartered plane with the chiefs from the United States. A discussion followed the film for over a half hour about the organization and contest in Germany and United States.

On Tuesday evening we had a presentation in genealogy. It was explained how we found our ancestors and how to do research in the United States, Canada and France. A number of books and magazine were shown and their useage explained.

Tours to places and sites in the area were going on all the time. We had a meeting room at the Motel open from 8 AM to 10 PM where items were displayed, people could meet and visit or get information. Copies of many books, including the Belisle/Dufresne and Belisle books were there.

Saturday morning, Jan 12, transportation was provided to a local shopping center to visit. Then Charlotte and Harvey Belisle had open house at their home for everyone where a wonderful lunch was provided.

Saturday evening after Mass, we presented the story of the "Great Recruit of 1653" and the "Carignan Regiment" and some of the other early Canadians that are our ancestors.

Most of the people left on Sunday, January 13, 1980.

A Belisle family line that we were unable to make contact with is the Acadian family of Alexandre Le Potgne de Belle Isle. He was born in France in 1640 or 1643, was temporary Governor of Acadia and died at Port Royal in 1693. They had 7 children and their descendants were transferred to the east coast of the United States when England took their land and deported them. We did have contact with Belisles along the east coast but they did not know their ancestors. It is possible that the Belisles from Tennessee that go back to North Carolina are from this line.
